

CONDITIONS FOR ACCEPTANCE

Clean soil

DESCRIPTION

Clean soil. Soil that is directly suitable for reuse without treatment, not originating from suspect locations or from soil remediation sites.

Permitted

- Soil from non-suspect sites
- Soil from non-suspect sites can be accepted at a BRL9335-certified location on the basis of acceptance without analysis.
- Soil from a suspect location will only be accepted with analyses
- Further specifications:
 - Soil >80 v%
 - Rubble <5 v%
 - Contamination concentrations meeting those specified for residential use (based on analysis)
 - The batch should be solid and stackable (water <25 w%)

Prohibited

- Hazardous waste
- Construction and demolition waste
- Commercial waste
- Materials containing asbestos or suspect asbestos-containing materials
- Batches composed of soil from multiple locations
- Soil must be free from chemical contamination
- Soil free from invasive exotic plant species such as Giant hogweed or Japanese knotweed
- Soil may not contain any material foreign to the soil

** If, upon delivery, deviations are found from the described conditions, Renewi Nederland B.V. reserves the right to refuse the consignment in question or to accept it according to amended conditions.*

*** Your obligation and opportunity to separate can be found in the National Waste Management Plan (LAP)*
