

CONDITIONS FOR ACCEPTANCE

Trap grease

DESCRIPTION

Fat, oil and grease from grease traps or interceptors in commercial kitchens.

Permitted

- Grease from traps or interceptors must consist of water, vegetable oils, animal fats and sludge components derived from food waste and food preparation activities.

Prohibited

- Soaps, detergents and solvents
- Textiles, Pottery, glass, aluminium foil, cutlery, cans and other metal objects
- Substances causing odour nuisance
- Chemicals and other substances harmful to human, animal or plant health
- Burning or smouldering waste or substances which, when in contact with water, release flammable gases and/or ignite
- Waste materials that are difficult to process because of hygienic, aesthetic and/or technical reasons such as specific hospital waste
- Cooked food waste (swill), meat and fish waste, carcasses, offal and faecal matter (Animal By-Products category 1, 2 or 3)
- Substances for which an alternative processing or reuse obligation has been laid down
- Materials containing asbestos or suspect asbestos-containing materials

** If, upon delivery, deviations are found from the described conditions, Renewi Nederland B.V. reserves the right to refuse the consignment in question or to accept it according to amended conditions.*

*** Your obligation and opportunity to separate can be found in the National Waste Management Plan (LAP)*
