

CONDITIONS FOR ACCEPTANCE

Grade C waste wood

DESCRIPTION

Wood that has been treated for its preservative properties by means of metal salts, fluorine, boron and organic compounds and/or has been left in water for a long time. The dimensions shall not exceed 300 x 26 x 15 cm

Wood with dimensions larger than 300 x 26 x 15 cm is classified as bulky grade C wood.

Grade C wood with heavy iron attachments, such as large bolts or (railway) mounting panels is classified as bulky grade C wood.

Permitted

- Dolphin or mooring wood (hardwood)
- Railway sleepers (free from metal plates and bolts)
- Coated, creosoted or otherwise preserved wood
- Other wood types <5 v%

Prohibited

- Hazardous waste
- Construction and demolition waste
- High pressure laminate, Trespa
- Asbestos or suspect asbestos-containing material
- Other waste materials such as textiles, sand, rubble, soil, roofing, paper, metals, corrugated iron, ceiling tiles, plastics, glass, insulation material, etc.
- Garden and green waste
- Wood in powder and/or dust form
- Hinges and locks, nails, screws or bolts larger than 10 mm in diameter as well as S hooks
- Burnt or charred wood

A surcharge applies to bulky grade C wood

** If, upon delivery, deviations are found from the described conditions, Renewi Nederland B.V. reserves the right to refuse the consignment in question or to accept it according to amended conditions.*

*** Your obligation and opportunity to separate can be found in the National Waste Management Plan (LAP)*
